

## Viscoelastic Mattress Three Layer

### TECHNICAL SPECIFICATION DATA SHEET

MT 03 Viscoelastic Mattress provides comfort to user. The special filling material in its top surface provides the weight to distribute on the mattress by surrounding its user. The dense filling material in the bottom surface increases the lying comfort by providing adequate support to the user.

MT 03 Viscoelastic Mattress is produced with 3 layers. Top layer is from 50kg/m<sup>3</sup> viscoelastic material which is shaped according to human body. Bottom layer supports the top layer with 28kg/m<sup>3</sup> and 32kg/m<sup>3</sup> cold foam. Furthermore the nylon cover is antibacterial and provided with a zipper.

- Accords to all bedsteads through a special CNC cutting,
- Comfort is provided to the user by the regional design,
- One-piece design creates an acute alternative to mattress with classical parts,
- Provides with anti-bacterial, water proof, fire reterdant nylon cover.
- With two (2) handles on both sides
- Anti-slip, friction reducer
- Graphene that produces thermal conductivity for heat reduction
- Reinforced foam perimeter edge
- Latex free
- Maximum load weight is 200 kg
- Dimensions are as below

- 80 inch x 36 inch x 6 inch
- 78 inch x 34.5 inch x 6 inch
